SAFETY

Your safety and the safety of others is very important.

We have provided many important safety messages in this manual and on your appliance. Always read and obey all safety messages.

This is the safety alert symbol.

This symbol alerts you to potential hazards that can kill or hurt you and others.

All safety messages will follow the safety alert symbol.

All safety messages will tell you what the potential hazard is, tell you how to reduce the chance of injury, and tell you what can happen if the instructions are not followed.

Appliance Specifications:

220-240 Volts, 50~60 Hertz, 1200-1500 W

Safety Instruction

- (1) Read and keep the instruction manual for future reference.
- (2) Keep the machine on a stable desktop, which should be dry, ventilated and out of reach of children.
- (3) This machine is manufactured for 220/240 V please ensure connecting it to the correct electric outlet.**
- (4) Don't use the machine if the water is not to the recommended level.
- (5) Dispose of all packaging before using the machine.
- (6) Please keep the machine far from heat sources.
- (7) Normal temperature scale for use and storage of the machine is 0 Celsius to 45 Celsius. Sub-zero temperature may damage the machine.
- (8) Please only use room temperature water in the water container, as hot water will damage the machine.
- (9) Please use lint-free dry cloth to clean the machine.
- (10) Don't interfere with the inside structure of the machine. Such action will invalidate your warranty.
- (11) Emptying and cleaning the brewing unit should only be done when the machine is powered off.
- (12) This machine should be serviced only by qualified professionals.
- (13) Avoid any water or liquid to go inside the machine apart from the compartment dedicated to it.
- (14) If you will not use the machine for a long period, please power off, clean all compartments and disconnect the plug.

Read before first use

- (1) Please check and make sure brewing unit is locked, place container and drip tray in right position.
- (2) Fill the water tank with clean water.
- (3) For first use fill more than 30g coffee beans into the bean container.

Note: Only coffee beans are allowed to be placed in the bean container, please don't add water, coffee powder, coffee bean mixed with stones or other hard objects inside the bean container, otherwise the grinder will be damaged.

Customer Service Enquiry

To submit a Customer Service enquiry, go to www.smartworldwidefun.com and fill out the Customer Service enquiry form and click the Submit button.

This appliance is designed and built to provide many years of satisfactory performance under normal household use. The distributor pledges to the original owner that should there be any defects in material or workmanship during the first 90 days of purchase, we will repair or replace the unit at our option. Our pledge does not apply to damages caused by shipping, mishandling or unit being dropped. A product deemed defective either from manufacturing or being mishandled is up to the distributor's discretion. In order to obtain service under this warranty, please contact the seller as the first port of call.

This warranty does not apply to re-manufactured merchandise.

Please read these instructions carefully. Failure to comply with these instructions, damages caused by improper replacement parts, abuse or misuse will void this pledge to you and is being made in place of all other expressed warranties.
